Message from chairman

It is my utmost pleasure to share with you the remarkable achievements of Madha Dental College, a beacon of excellence in dental education. Our institution's commitment to providing world-class education and fostering a culture of innovation has propelled us to great heights. Madha Dental College takes pride in its distinguished faculty, whose expertise and dedication have shaped countless successful dental professionals. Our comprehensive curriculum, coupled with state-of-the-art facilities and advanced technology, ensures that our students receive an unparalleled learning experience. The research conducted at Madha Dental College has garnered national and international recognition, contributing significantly to the advancement of dental science. Our students have the opportunity to engage in groundbreaking research projects, fostering their intellectual curiosity and critical thinking skills. As you embark on your journey in dentistry, I encourage you to consider Madha Dental College as your destination of choice. Our institution not only provides a strong academic foundation but also cultivates qualities of compassion, empathy, and ethical practice, essential for a successful dental career. By joining Madha Dental College, you will become part of a vibrant and inclusive community that encourages personal growth, collaboration, and lifelong learning. Our alumni, who have excelled in their respective fields, are a testament to the holistic education provided at our institution. I extend a warm invitation to aspiring dental professionals to join our courses and embark on a fulfilling and rewarding educational journey. Together, let us shape the future of dentistry and make a lasting impact on the oral health of our society.

Message from vice chairperson

As the Vice Chairperson of Madha Dental College, it is my utmost honor to express my sincere appreciation for the exceptional institution that is Madha Dental College. Our college stands as a testament to unwavering dedication, tireless pursuit of excellence, and a steadfast commitment to providing an outstanding dental education. With state-of-the-art facilities, renowned faculty, and a dynamic learning environment, Madha Dental College has created a nurturing space for academic and professional growth. I applaud the college's relentless efforts in imparting comprehensive knowledge, fostering practical skills, and instilling a sense of compassion and ethical responsibility in our students. It is through this holistic approach that we shape future dental professionals who are not only technically proficient but also deeply compassionate towards their patients. Madha Dental College's relentless pursuit of innovation, research, and community engagement sets it apart as a leader in dental education. Our students are provided with ample opportunities to engage in cutting-edge research, participate in outreach programs, and contribute to the advancement of oral healthcare. I invite you, ambitious students, to be a part of this remarkable institution, where you will be empowered to unlock your full potential, embrace challenges, and emerge as confident and competent dental professionals. Madha Dental College offers an environment that nurtures growth, encourages collaboration, and facilitates a lifelong passion for learning.

Message from Principal

I am filled with immense pride and admiration as I reflect upon the outstanding achievements of our institution. Madha Dental College has consistently demonstrated its commitment to excellence, making us a source of inspiration and a benchmark for dental education. The unwavering dedication and expertise of our faculty have nurtured and shaped the careers of our students, equipping them with the skills, knowledge, and compassion to excel in the dental profession.

Our state-of-the-art infrastructure, modern facilities, and advanced technology have provided an exceptional learning environment for our students, enabling them to receive comprehensive training and hands-on experience. Madha Dental College's contributions to dental research have been commendable, with our faculty making significant breakthroughs and pushing the boundaries of knowledge in the field.

I extend my deepest gratitude to our hardworking staff members who have played a vital role in creating a supportive and nurturing atmosphere within our institution. As we look towards the future, I have no doubt that Madha Dental College will continue to thrive, remaining at the forefront of dental education and research, and producing exceptional dental professionals who will make a positive impact in their communities.

CLINICAL SOCIETY MEETING

On 27th June 2025, the Department of Orthodontics and Dentofacial Orthopaedics hosted its Clinical Society Meeting in the auditorium. During the program, **Dr. Mathew Joel** delivered a comprehensive talk on the fundamental component used in various orthodontic appliances to generate the force required for skeletal and dental expansion. This was followed by **Dr. Harshitha R's** segment, which focused on Artificial intelligence (AI) algorithms, particularly Convolutional Neural Networks (CNNs), provide faster and more reproducible results than manual tracing, they still do not match the precision of human orthodontists in consistently identifying all cephalometric landmarks. Following the segment, interns contributed to the session: **Gautham** discussed **Lateral ceph vs CBCT**, A lateral cephalogram is a 2D X-ray that is a standard tool for orthodontics, while CBCT is a 3D scan that provides more detailed and accurate information but at a higher radiation dose and cost. CBCT, and **Vishnu Priya** presented on **IPR interproximal reduction "micromilliliters mega impact" IPR in modern orthodontics.**

ENSEMBLE – INTERDISCIPLINARY PROGRAM FOR 3B TB (3 BASAL IMPLANT AND TITANIUM BAR BUTRESS)

The program was taught using powerpoint and lots of interactions with faculty members. Basics in full mouth rehabilitation were discussed. Anatomic and Physiologic considerations of maxillary sinus, pterygoid and Armamentarium required for this procedure were discussed with interactions. The programme was tailored for dental post graduate students for better understanding and clinical application of full mouth rehabilitation procedure. Methods of 3b tb protocol were explained, and using straight hand piece physio dispenser were some of the highlights contributed. Live Demonstration in patient was done and the steps were emphasized. The program gave lots of tips for postgraduates how to proceed with post-operative complications. Thus post graduate students were more confident about the procedures in which the 3btb can be taken to get desired results.
